Haven Table Accessory Components

Hardware

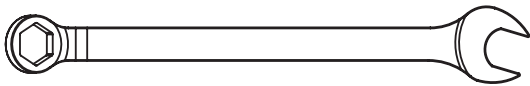

M8 Washer, 23mm
OD (0001567)
(For Floating Planter
Tray only)

M8 Nylock Nut
(0001248)
(For Floating Planter
Tray only)

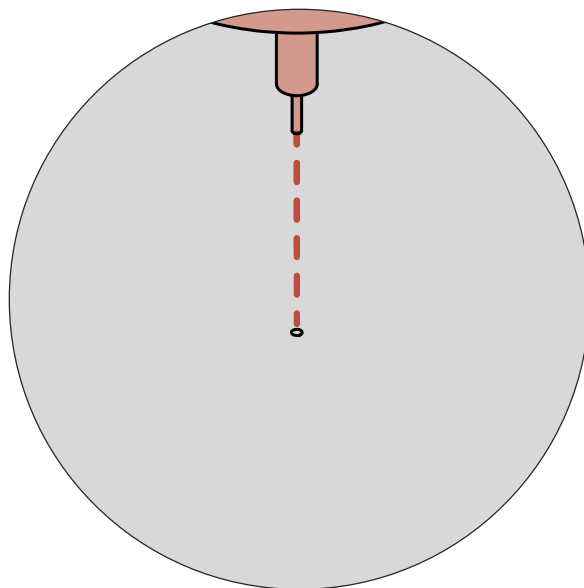

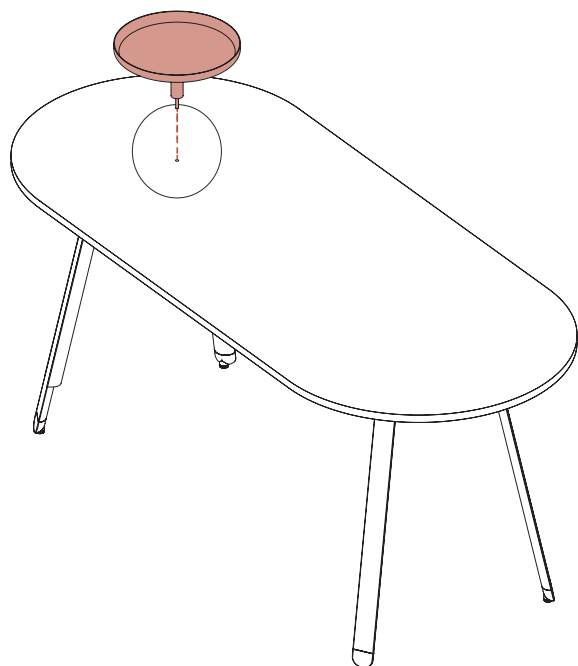

Tools

13mm wrench
(For Floating Planter
Tray only)

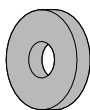

1. Floating Planter Tray: Place Planter Tray into Cutout

Place the stem of the Floating Planter Tray in the appropriate surface cutout hole.

2. Secure Planter Tray

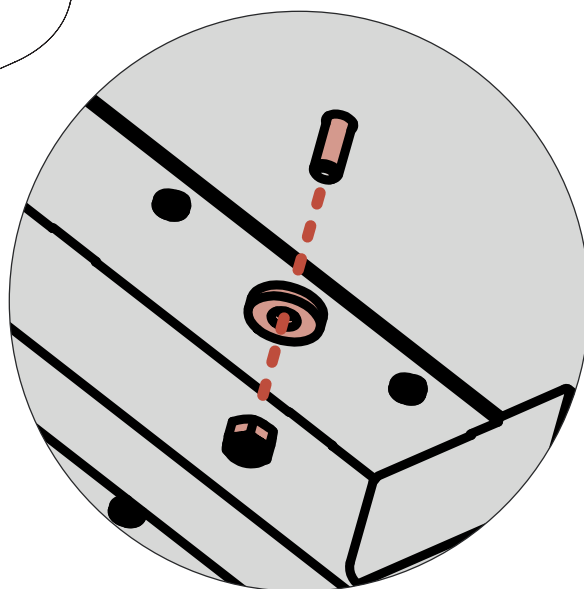

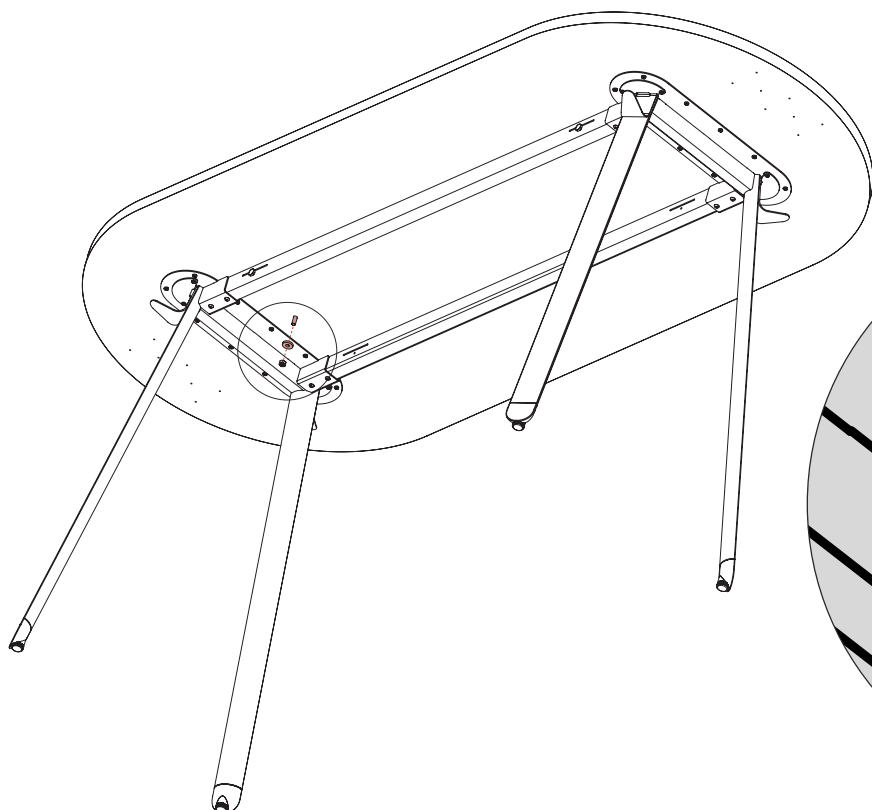

Place the washer and nut onto the planter tray stem. Secure the nut onto the stem using a 13mm wrench.

(For Floating Planter
Tray only)

1. Cable Channel: Install the cable Channel

Place the cable channel extrusion on the rounded side of the table leg. Apply even pressure to the extrusion until it firmly clicks into place. No hardware is needed to secure it in place.

- 1. In-Surface Planter: Install the In-Surface Planter**
Place the in-surface planter into the large surface cutout. No hardware is needed to secure it in place.
