# Higher Education and Learning Environments

With rapid advancements in technology and unprecedented access to information, students and education professionals are constantly adapting to how and where they work. At Watson, we create reliable furniture that meets the unique demands of an ever-changing education landscape.

## Designed to Inspire, Built to Last

Design engaging environments that encourage connection, provide necessary access to technology, and support a diverse range of learning and working styles by utilizing our vast array of offerings. Our furniture is built to last with durable, environmentally responsible materials and processes, and promises to be a healthy, enduring investment for years to come.

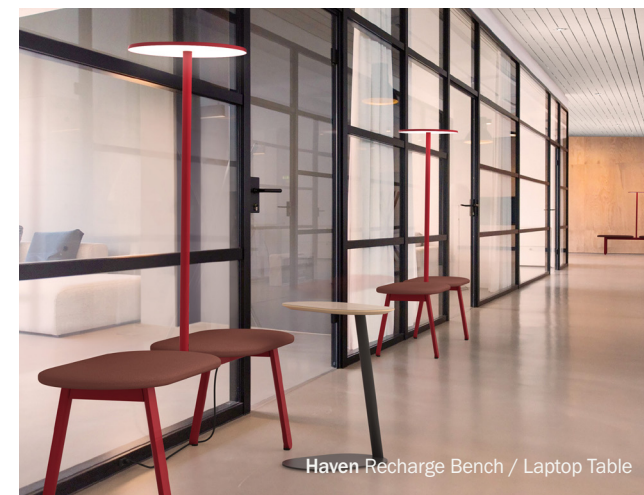

**Collaborative and Flex Areas**  
 Craft locations where groups thrive and that can be reconfigured to suit their purposes.

## Communal Spaces

Shared areas, from cafés and transition zones to collaborative spaces, are an integral part of education spaces. They inform the learning experience by supporting social interaction, personal and peer learning, and recuperation.

## Café and Transition

Encourage students to gather, play, and rejuvenate with products that feel dynamic and inviting. Create opportunities for spontaneous interactions by utilizing furniture that shine in transition areas like thoroughfares and outside resource rooms.

Mastermind System Tables

Miro Flip Tables

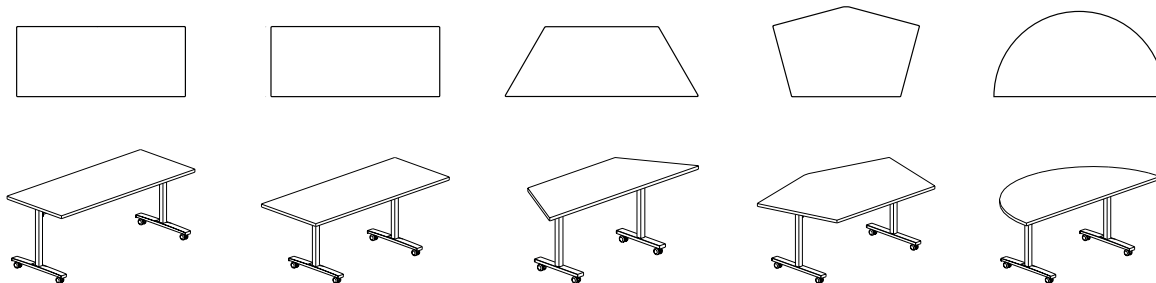

# Active Learning Classrooms

Encourage cooperative learning opportunities that inspire student collaboration and peer teaching. Easily reconfigure a layout for small group activities or for a traditional lecture setting.

## Access to Power

More than ever before students are constantly on the move, with a multitude of devices for learning, communicating, and notetaking. Make recharging easy by providing easy access to power.

Tonic Work Tables

Miro Meeting Table

# Libraries

A staple of the education landscape, libraries support the needs of students and faculty members. A range of Watson products can provide spaces for social learning, discovery, and focused concentration that thoughtfully integrate technology.

Etch Markerboards / Tonic Table

Tonic Workbench

## Technology-Driven Education

Watson furniture enhances computer labs for virtual and self-guided learning. Merging design with tech-ready features, our pieces support learners in today's digital domain.

# Faculty and Admin

Faculty and administrative workspaces need to support multiple work modes, from private offices to reception and shared resource rooms. Maximize your available footprint by utilizing smart worksurfaces and storage.
