Privacy Options

Watson provides a variety of [screen options](#) to add privacy and function to individual workstations.

Grommet Locations

All grommets are sized at 60mm in diameter, constructed of black plastic and come standard with a grommet cover. For alternate grommet locations, you can order DAGR grommets separately and install them in the field.

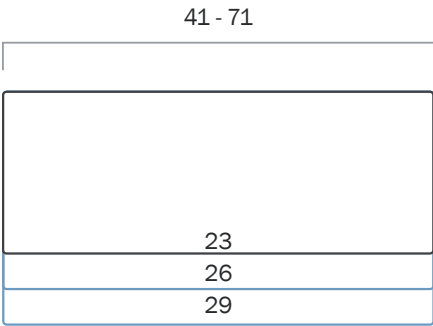

All two leg desks can be specified with one centered grommet.

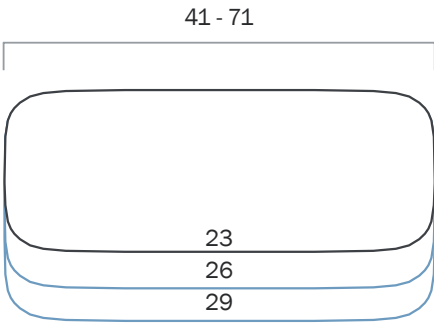

All three leg desks can be specified with one grommet placed $18\frac{1}{2}$ " from adjacent back edge.

Verve

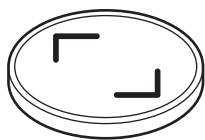

Base & Switch Options

Seven Desks are available in four base types. The consistent leg and foot design mean you can blend height-adjustable bases with fixed bases and retain a uniform design style throughout your floor plate.

Electric Base Switches & Power Cord

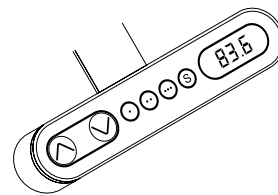

Electric Bases are controlled through either an Embedded Switch, Undermount Switch, or Memory Switch options, and include a 120" plug-in power cord.

Embedded Switch

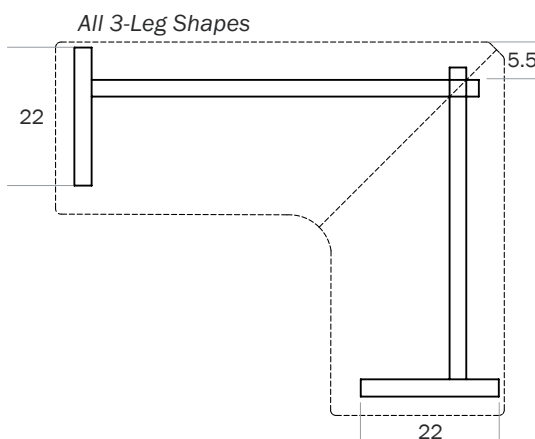

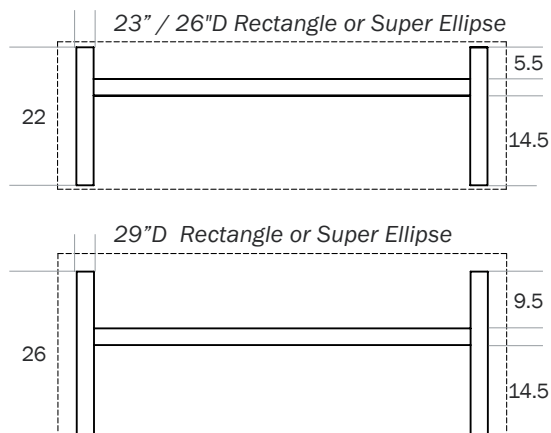

Undermount Switch

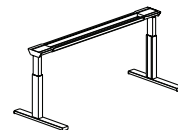

Memory Switch

Seven base assemblies are available in either two or three leg configurations with fixed, crank and electric adjustment mechanisms, allowing you to combine a Seven base with your custom worksurface. All bases include necessary hardware for worksurface attachment.

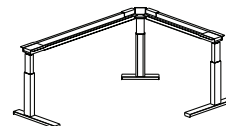

Two Leg Base

D: 23, 29
W: 41 - 71

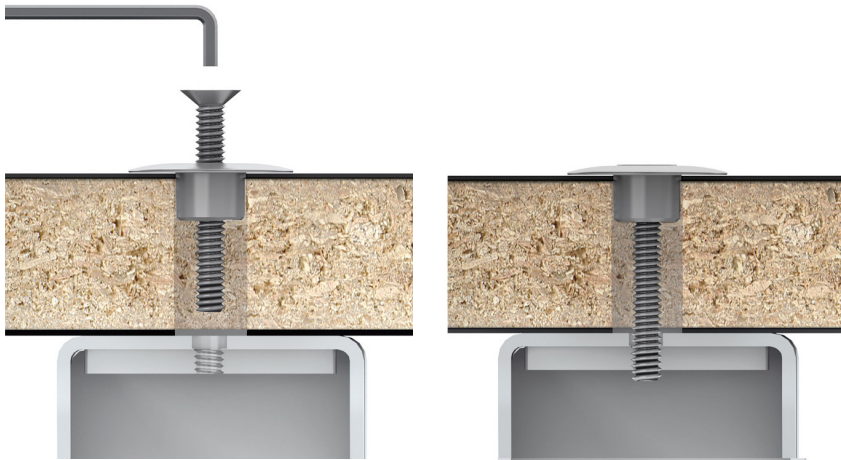

Three Leg Base

D: 23, 29
W: 41 - 71

Reversible Desk Surfaces

Surface Interlock Assembly™

Our patented Surface Interlock Assembly™ (patent number US008104410B2) provides a mechanical connection between the work surface and the base. Right handed or left handed, your surface will bear no markings for its previous assembly.

Reversible Desks

Reversible Seven Desks are designed to reduce inventory of handed worksurface shapes by allowing a single base and worksurface assembly to be flipped using one tool. Seven fixed, crank, and electric adjustable bases are all available with the patented Surface Interlock Assembly.

Seven | Product Specification Details

Desk Base — Electric

Top support brackets are constructed of 12-gauge cold-rolled sheet steel. Glides are screwed into metal inserts that are welded into the foot. The foot is constructed from two pieces of 12-gauge cold-rolled sheet steel. The adjustment mechanism is electrically height adjustable and consists of 2 or 3 telescoping rectangular steel tubes. All electronics and leg movements are backed by a 10-year warranty. A 12-gauge steel utility beam connects all legs and conceals cables. All metal components are powder coated.

Desk Base — Crank

Top support brackets are constructed of 12-gauge cold rolled sheet steel. Crank handles are made from die cast zinc alloy. The vertical tube assembly is 2"x2" and 1.5"x1.5" (083") thick steel welded to the top support and foot. The adjustment mechanism utilizes a precision-made steel spindle drive in each leg connected by extruded aluminum drive shafts. A 12-gauge steel utility beam connects all legs. All metal components are powder coated. 9-gauge steel Bright Wire cable management clips are included with each base and attach without tools to the Seven Utility Rail. Optional 16-gauge formed sheet metal vertical raceways may be magnetically attached to the 2x2" vertical leg.

Worksurface

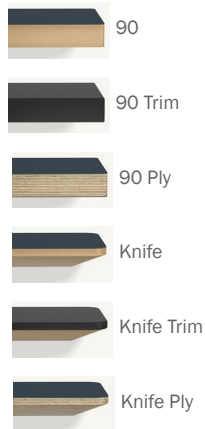

Worksurfaces that are edged with a synthetic material are 1-1/8" Thick and composed of horizontal grades of laminate that are bonded to a 1 1/8" industrial grade NAF particleboard core. Single Sided desks are finished with high pressure laminate on the topside and a sheet of horizontal grade backing material on the bottom. Worksurface dimensions are exact sized but come standard 1" smaller than typical panel dimensions to overall to allow for vertical movement without interference of plugs, wires, brackets and panels. Desk surfaces are fastened to the legs with steel machine screws threaded into brass inserts on the worksurface.

Edge

Reversible desks are available in three variations. The 90 profile highlights the perpendicular geometry of our principal silhouette. The 90 Natural edge is the greenest choice featuring an exposed NAF MDF core, clear-coated with a waterborne finish. 90 Trim is a 1.5mm thick polypropylene edge and offers the most compact profile. The 3mm thick polypropylene 90 Plus edge provides softer visual weight and a more substantial ergonomic buffer. In addition to the edges available on Reversible Desks, Single Sided desks can also be specified with the Knife profile which is exposed NAF MDF core clear-coated with a waterborne finish, or Knife Trim with 1.5mm edge banding. Finally there is a option in both knife and 90 edge profiles for a 27mm European birch multi-ply core and exposed edge finished in a waterborne clear stain.

Seven Workbench

Edge Options

Single-sided Seven Workbenches are available as Fixed Height, or Electric Height Adjustable

Dual-sided Workbenches are available as Fixed Height, Crank Height Adjustable, or Electric Height Adjustable

Seven Workbench comes standard in Silver, White, or Black powdercoat. All other Watson powdercoats include a steel leg shroud +\$165

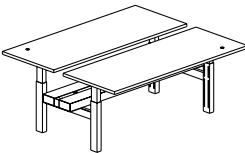

Spine screens are available in three styles: Pin features softly rounded corners, Tak has square corners, and Jot provides a functional markerboard for busy teams

Power raceways provide ample space for easy cable management

250 lbs lifting capacity, 400 lbs static load capacity

Seven Workbench

Technology Integration

The Seven Workbench offers a top-down, lay-in cabling for power, voice, and data cables, requiring a single-point feed-through from a floor or wall infeed location.

Standard Power

Heavy Power

Power Jumper Sizing

Determine the jumper length you will need by referencing the width of each side-by-side segment.

STANDARD POWER		SEGMENT 2 WIDTH						
		48	54	60	66	72	78	84
SEGMENT 1 WIDTH	48	37	43	43	49	49	55	55
	54	43	43	49	49	55	55	61
	60	43	49	49	55	55	61	61
	66	49	49	55	55	61	61	67
	72	49	55	55	61	61	67	67
	78	55	55	61	61	67	67	73
	84	55	61	61	67	67	73	73

HEAVY POWER		SEGMENT 2 WIDTH					
			60	66	72	78	84
SEGMENT 1 WIDTH							
	60		43	49	49	55	55
	66		49	49	55	55	61
	72		49	55	55	61	61
	78		55	55	61	61	67
	84		55	61	61	67	67

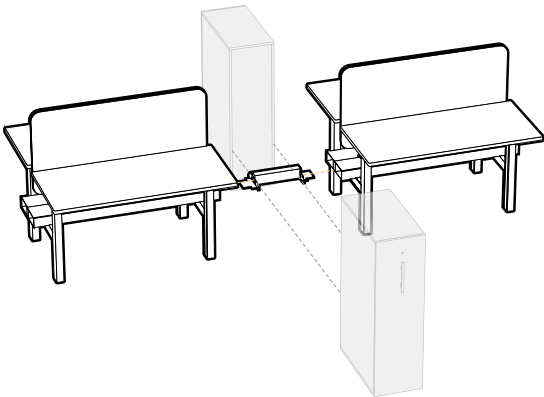

Optional Extended or Single-to-Dual Connection

Each adjacent segment must be connected. Segments ship standard with connector plates for simple connection.

Use Extended Connector Kits to allow 15" or 30" spaces between segments when using Side Towers between bench segments. Specify the standard jumper length for each workbench segment in addition to the connector kit. Kits include power jumper extensions the length of the connector.

Use Single-to-Dual Connector when converting from a Single-sided Workbench segment to a Dual-sided Workbench segment.

**15" Extended Mid Connector Kit Shown to accommodate the width of one Bahn Tower, the 30" kit to accommodate two towers side-to-side.*

T and X Bases

T-Base

Each rectangle, trapezoid and hexagon table is supported by two fixed steel T-Legs. T-Legs are always 6" less than the surface depth to maintain optimized leg clearance and stability.

X-Base

Each square and round table is supported by one fixed, steel X-Base that is available at 29.5" or 42" finished height.

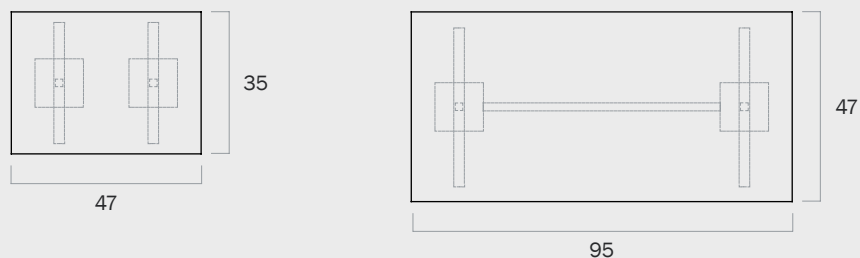

Seven Meeting Tables

Table Size Logic

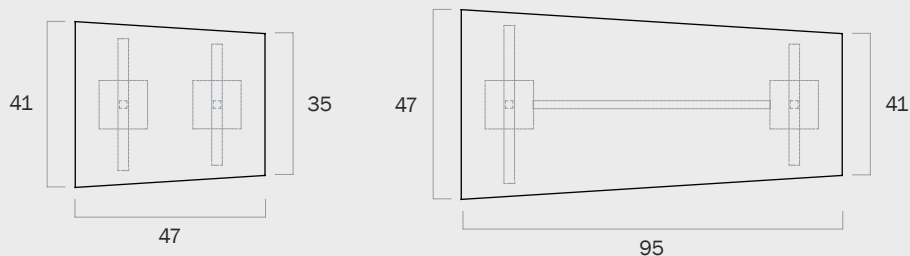

Rectangle

All rectangle tables are supported by two discreet T-Base legs and all lengths over 78" have support tube reinforced tops.

Trapezoid

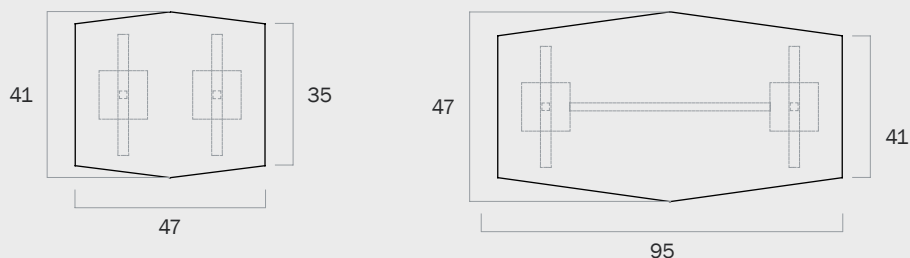

All trapezoid tables are supported by two discreet T-Base legs and all lengths over 78" have support tube reinforced tops.

**The overall size refers to the larger of the end dimensions. The shorter end is always 6" less than the depth of the opposite, longer end.*

Hexagon

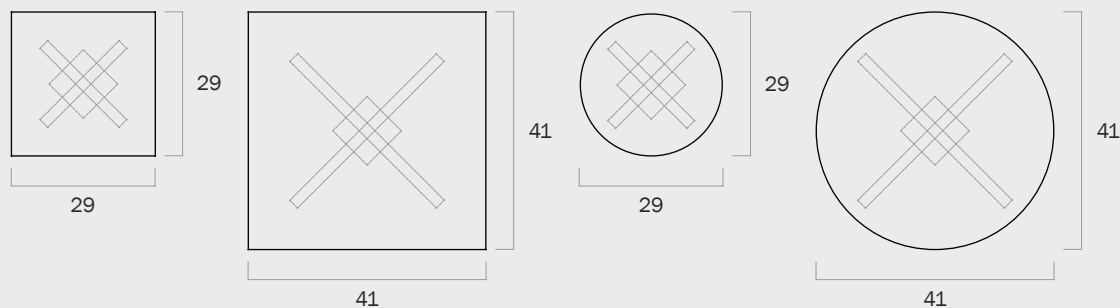

Sizes ranging from 41" x 47" to 47" x 95" are supported by two discreet T-Base legs and all lengths over 66" have support tube reinforced tops.

**Overall dimensions refer to the center depth dimension, the ends are always 6" less than the depth at the center.*

Square and Round

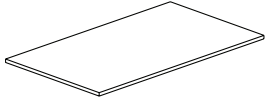

Sizes ranging from 29" to 41" diameter are supported by one X-Base.

T Base with Splice Kit

D: 35, 41
H: 29.5

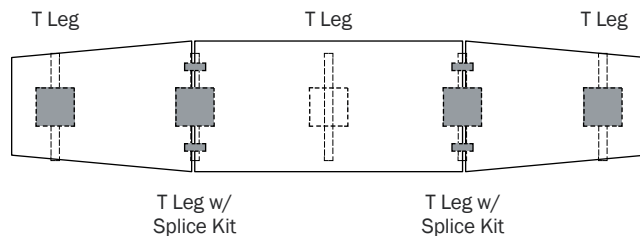

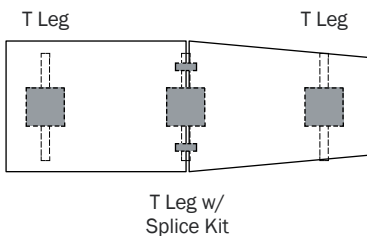

Seven Rectangle and Trapezoid surfaces can be combined to create larger meeting or conference tables.

**Combination tables are not grain matched.*

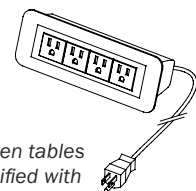

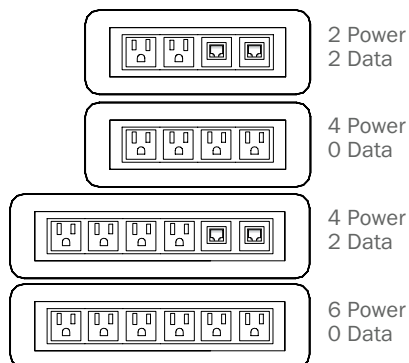

Specify T-Legs for table ends, and the T-Leg w/ Splice Kit for multi-surface table seams. Surfaces 84"W and over include a center mounted T-Leg. T-Leg sizes match the closest edge depth.

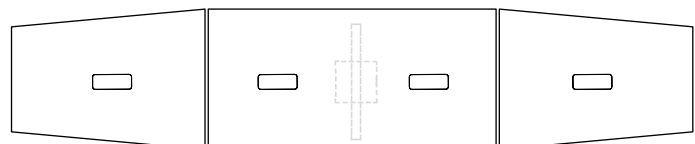

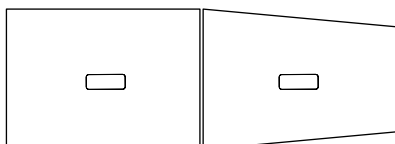

Power + Data

Rectangle, Trapezoid and Hexagon tables can be specified with a center-mounted drop-in containing a 4 or 6 receptacle power and data tap. The power tap is UL certified for horizontal applications and tested against spills. The power tap available white.

**Seven tables Specified with power will include a vertical cable channel. The Power Tap comes standard with a 10' cord.*

Each surface can be specified with drop-in power units. Surfaces 84"W and over may only be specified with two power units.

Power + Cutouts

Power Modules

There are seven standard configuration options for power and data with pre-configured cutouts available for all compatible Byrne power units.

DEAN-3

2 Power and 1 Dual USB with a 120" cord. Clamps to the edge of any table. Trimmed in a smooth molded plastic finish.

**Dean is not compatible with Knife edges.*

NACRE-4

2 Power, 1 data and 1 dual USB with a 120" cord. Trimmed in a white high gloss plastic finish.

MINIPOINT-4

2 Power and 2 data with a 120" cord. Trimmed in a Silver Mica plastic finish.

NACRE-4

3 Power and 1 dual USB with a 120" cord. Trimmed in a white high gloss plastic finish.

MHOB-3

2 Power and 1 dual USB with a 120" cord. Trimmed with a silver powdercoated aluminum finish.

MHO-4

2 Power, 1 data and 1 dual USB with a 10 foot cord. Trimmed in a silver anodized aluminum housing.

MHOB-5

3 Power and 2 dual USB with a 120" cord. Trimmed with a silver powdercoated aluminum finish.

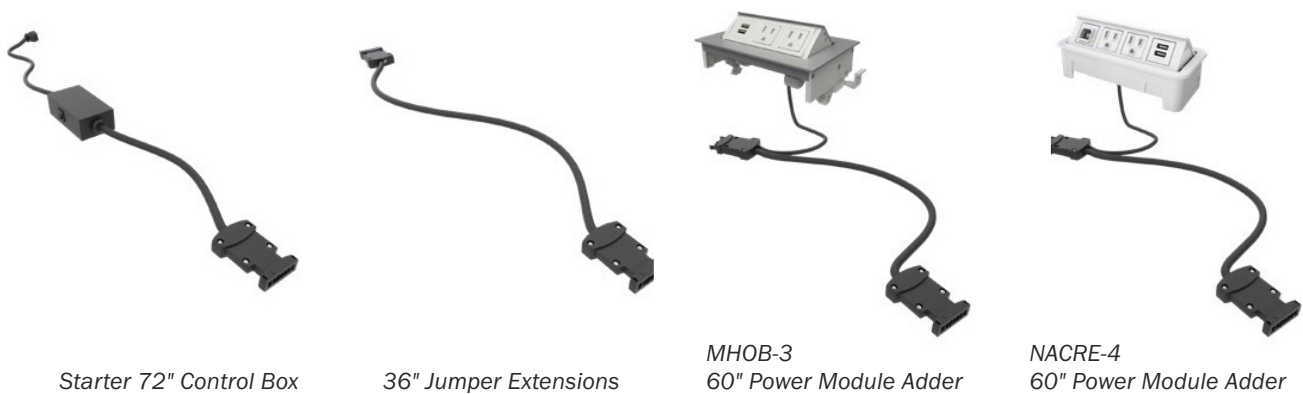

**120" power cord is ideal for undersurface cable management.*

***Byrne power modules with 4 or more simplex power outlets contain an oversized circuit breaker plug head which is not compatible with leg tube cable drop.*

Power + Cutouts

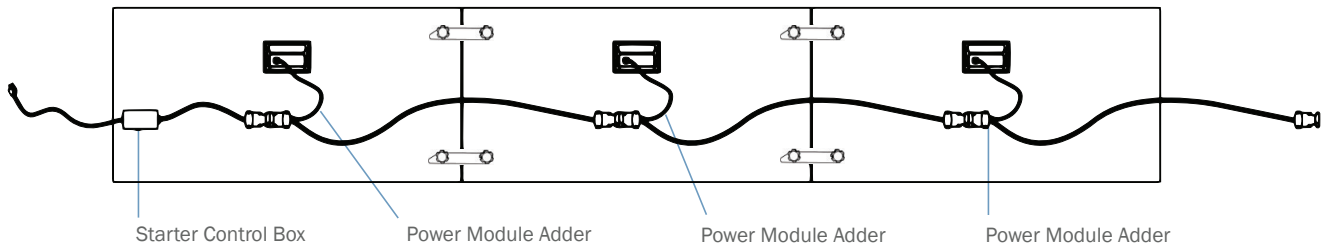

Modular Single Circuit Power

Byrne Interlink IQ is a UL listed modular and non-sequential power system with snap-together capability.

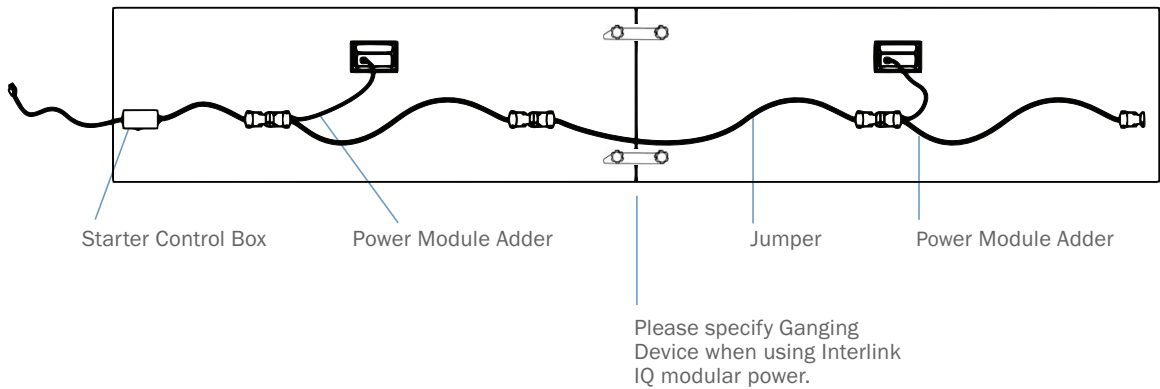

Interlink IQ
Up to 8 connections can be made on a single Control Box infeed.
Jumper extensions count as a 1 connection.

For table widths 60" and under

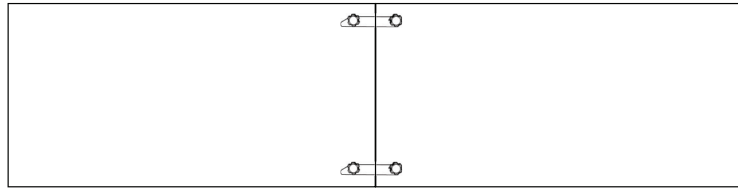

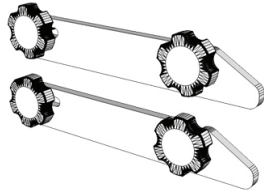

For table widths over 60"

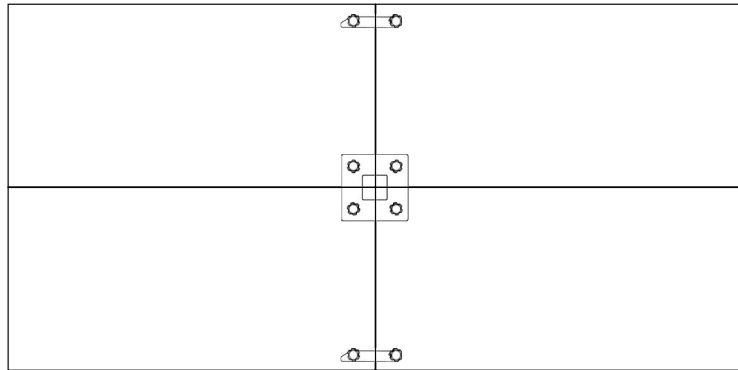

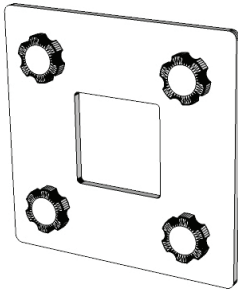

Power + Cutouts

Ganging Clips

Optional undersurface ganging clips are used to lock adjacent surfaces together. All Training Table surfaces are pre-piloted at the factory for easy field installation.

For side by side table connection

For bracketing four tables together

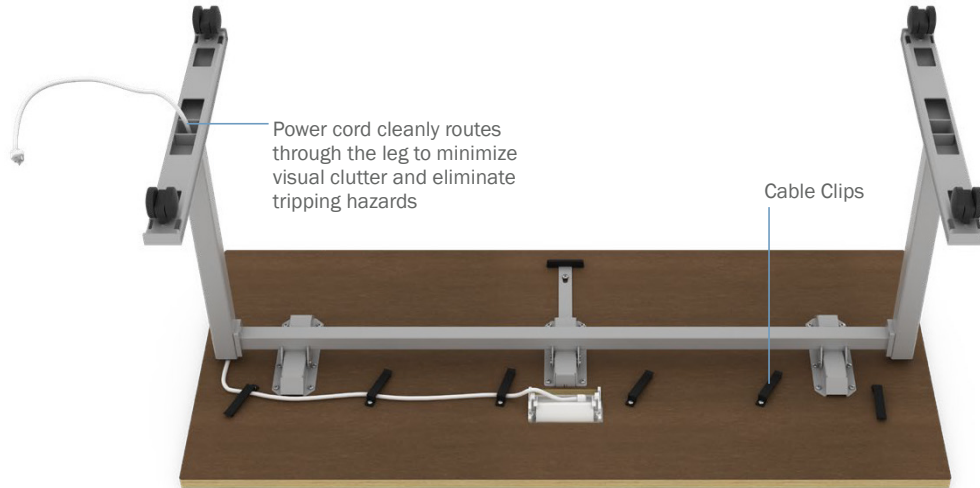

**In instances where training tables are arranged in configurations with the table back-to-back, end-to-end, and back-to-end, the table surfaces will not always have perfect alignment. The variability in building floors along with the tolerance of manufacturing coupled with non-adjustable casters, does not allow for a perfect alignment. To alleviate these issues, the use of side-by-side ganging brackets and corner ganging brackets are recommended for these configurations, ie., racetrack shapes, large rectangles.*

Power + Cutouts

Cable Clips

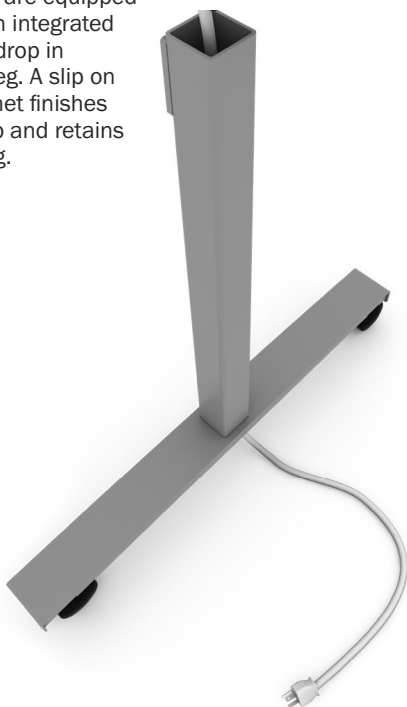

Each table comes standard with nylon reinforced cable clips that secure to the underside of the worksurface with wood screws.

Table Width	Qty Clips
48	4
60	4
72	4
78	6
90	6
96	6

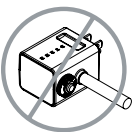

Cable Drop

Tables are equipped with an integrated cable drop in each leg. A slip on grommet finishes the top and retains cabling.

Note —
Byrne power modules with 4 or more simplex power outlets contain an oversized circuit breaker plug head which is not compatible with leg tube cable drop.

Accessory Wire Manager

Large capacity cable management trough attaches to underside of worksurface. Wire Manager is compatible with all base styles, modesty panels and power modules.

Finish Guide

Grain Direction

Desk, Worksurface, Workbench, and Meeting Tables: woodgrain laminate runs the width of each surface.

Combination tables with woodgrain laminates are not grain matched at seams.

*The Seven Desk base comes standard in Silver, White, or Black powdercoat. All other Watson powdercoats include a steel leg shroud +\$165 (internal lifting columns will remain Silver, White, or Black)

Extended Powdercoat Program

Additional RAL colors are available as part of Watson's Extended Powdercoat Program. Please consult with your account manager to ensure your powder selection is available. Some pearls and metallics are not offered.

- Upcharge: \$1760 list per order, per color
- Leadtime: Check with the Factory for Lead Time

**Seven Desk Powdercoat Options

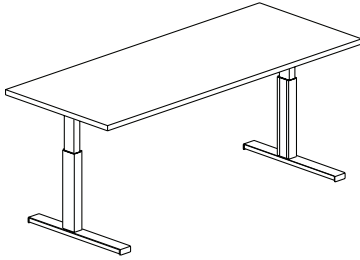

Seven electric height-adjustable desk bases come in Silver, White, or Black as a standard option. Additional Watson powdercoats are available for a \$165 list upcharge, which includes a metal powdercoated leg shroud. Leg internals are always black. Please contact the factory for details.

***Clearcoat Powdercoat (Raw Steel)

Preserves the look of exposed welds with visible heat bluing, grinding, natural blemishes and manufacturing tooling marks. +\$110 list upcharge
