

Zo Office

Neighborhood Vibes, Workplace Ties

Combining function, customization, and efficiency into easy-to-use building blocks, Zo Office helps create inviting settings that feel great to work in across open-plan and private office environments.

Details

Featuring fixed-height and height-adjustable workstations with a range of integrated and add-on storage options, Zo Office comes in four distinct models to make planning multiple settings easy; run-off, inline, dual inline, and corner.

Features

- Run-off, inline, and dual inline worksurfaces come in two top shapes; rectangle and super ellipse
- E-chain cable manager holds up to 22 cables
- Numerous desk screen accessories to choose from help define space and offer privacy
- Integrated anti-collision technology limits material damage that could otherwise be compromised while adjusting the worksurface's height
- Three control switch options: Watson's proprietary in-surface controls, programmable paddle switch, and an advanced paddle switch with display, all Bluetooth compatible

Surface mounted screens add additional functionality and varying degrees of privacy.
