Zo Office Run-Off Desk Details

When specifying Knife or Round Under Edge options, the surface will be profiled on three sides: along the user edge and along both depths. The profiled shape tapers to a 90 degree edge on the approach side to allow for clamp-on monitor arms and convenience power.

Available as Fixed (29.5") or Height Adjustable, Standard Range (27-46.5")

Tapered steel foot profile includes leveling glides with up to .5" adjustment

Run-off desks can be optioned with a single grommet, specified as Left or Right

Comes standard in Silver, White, or Black powder-coat

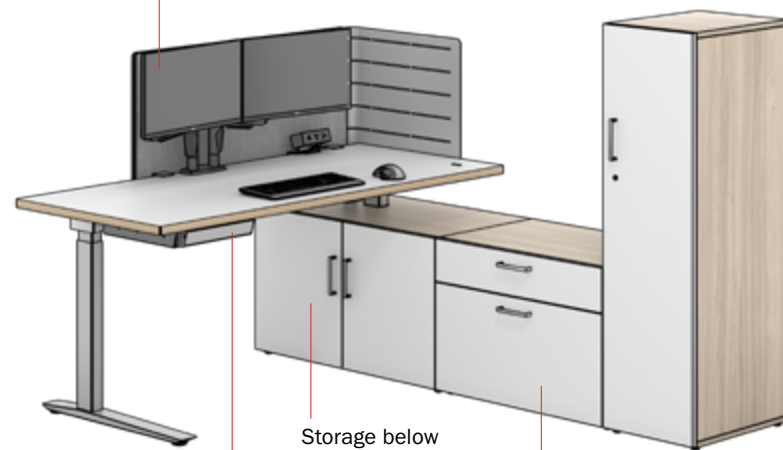

All other Watson powdercoats include a steel leg shroud + \$85

Three switch types are available for height adjustable desks. Optional Bluetooth capability. Default switch location is above storage.

Storage for 24" D worksurfaces do not have a vertical divider

Storage for 30, 36" D worksurfaces have a vertical divider

Surface mounted screens add additional functionality and varying degrees of privacy.

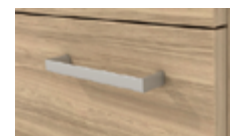

Optional Steel Pendant Storage available in two depths to match desk sizing. It is non-locking.

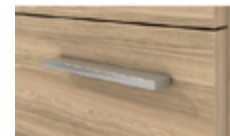

Storage below the run-off desk can be specified as open or with a pair of doors.

Leverage other Zo storage products to complete your space. Wardobes, Filing, and additional compatible storage types can be found in the [Zo pricer](#).

Pull Options

Alto

Bar

Jota (Black)

Jota (Silver)

Surface Shapes & Sizes

Desk surfaces are 1-1/8" thick

Units are handed, noted as storage on left, storage on right

Standard grommet placement is left or right as noted below. Grommets are 2.5" on center from the back edge of the worksurface and 12.75" on center from the end. If another grommet location is desired, order DAGR 60mm grommets separately and install them in the field.

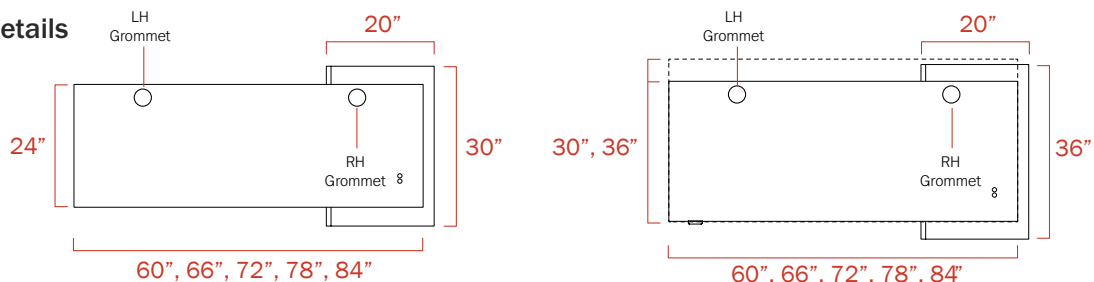

Tops are net sized. Actual dimensions are 1" less than the specified width and depth of the surface.

Run-Off Desk Sizes & Details

Rectangle

Worksurface D: 24, 30, 36

Worksurface W: 60-84

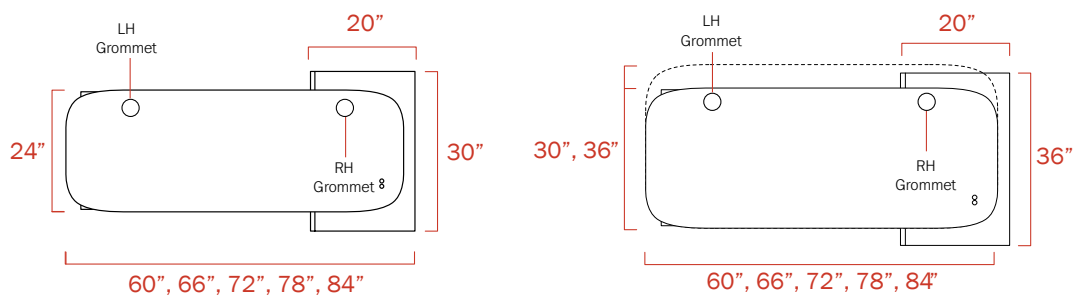

Super Ellipse

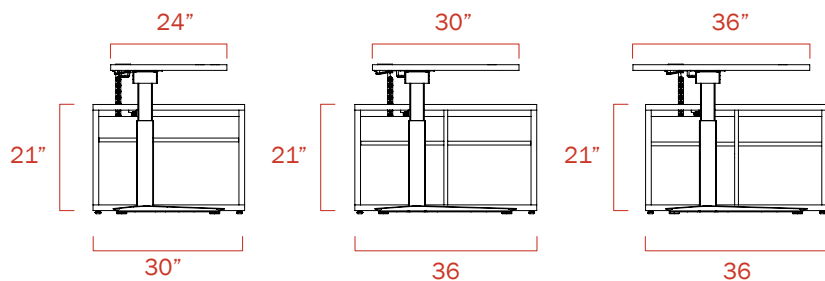

Worksurface D: 24, 30, 36

Worksurface W: 48-72

Super Ellipse surfaces have a softer aesthetic with an ellipse corner radius.

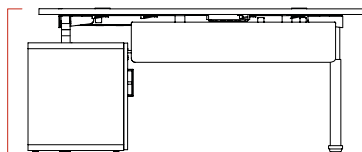

24" D and 30" D surfaces are centered over the integrated storage.
36" D surfaces extend 6" further to the approach side of the desk.

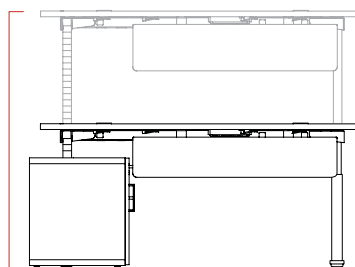

Available as fixed (29.5") or standard height adjustability range (27"-46.5")

Fixed Height
29.5"

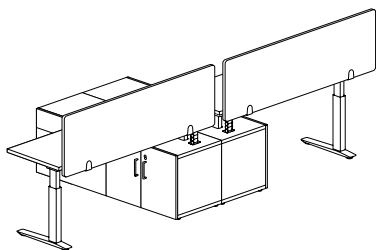

Standard Height Adjustable
27" - 46.5"

Run-Off Desk Accessories

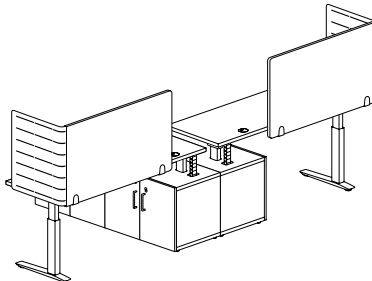

Surface mounted screens offer added functionality to the workspace by providing the option for tackable surfaces. Slotted metal components on the corner screen can accept desk tools such as coat hooks and a pencil cup.

Corner screens are specified as Left or Right but can be easily reversed in the field.

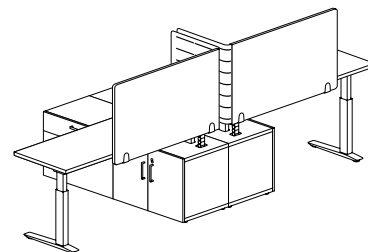

Side-to-Side configuration with surface mounted screens.

Screen width matches surface width

Side-to-Side configuration with surface mounted corner screens at outside

Screen width = $\frac{2}{3}$ of Surface width, specify according to surface width

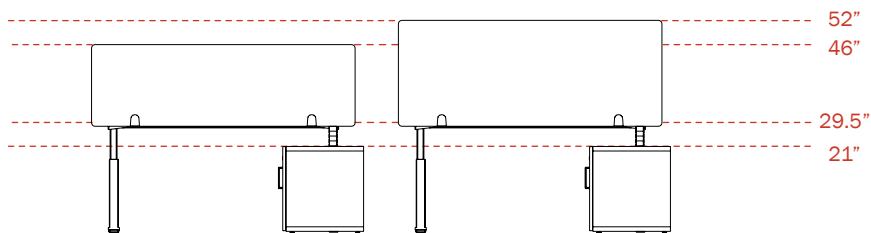

Side-to-Side configuration with surface mounted corner screens over storage

Screen width = $\frac{2}{3}$ of Surface width, specify according to surface width

Surface mounted screens are available in two heights:

20" H screens have a 17"H above the surface

26" H screens have a 23"H above the surface

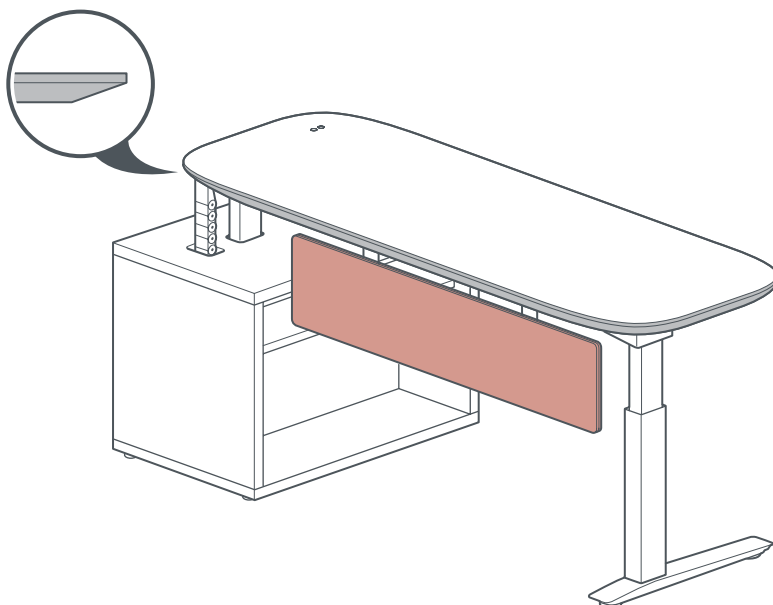

Run-Off Desk Accessories

Modesty panels mount to the undersurface of desks with wood screws

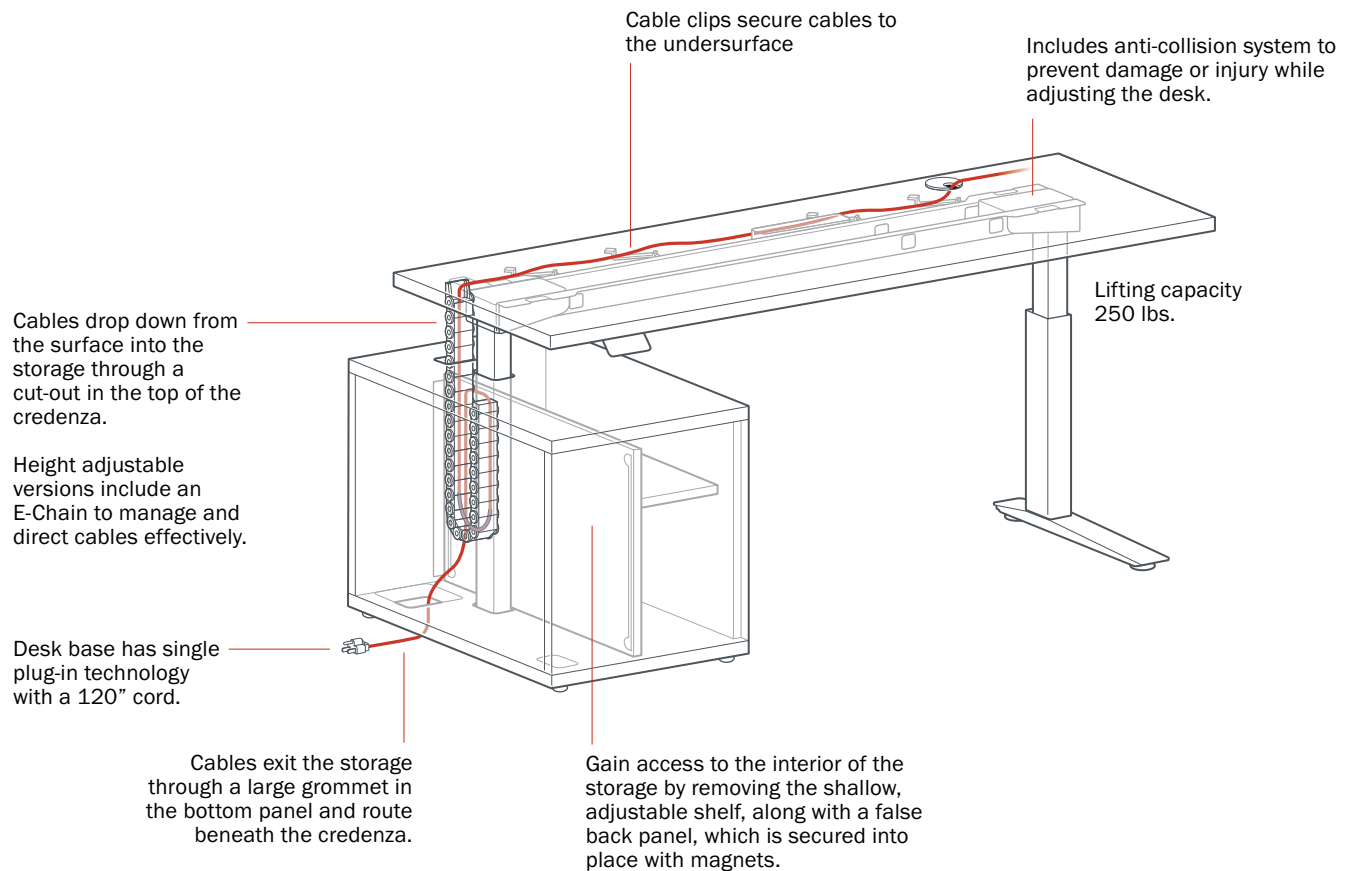

Hangs 9" below desk

1.5" of clearance between the top of the modesty panel and the underside of the worksurface to allow for clamp on accessories to attach.

For Run-off desks, specify a modesty panel that is 24" less than the specified surface width.

Run-Off Desk Cable Management

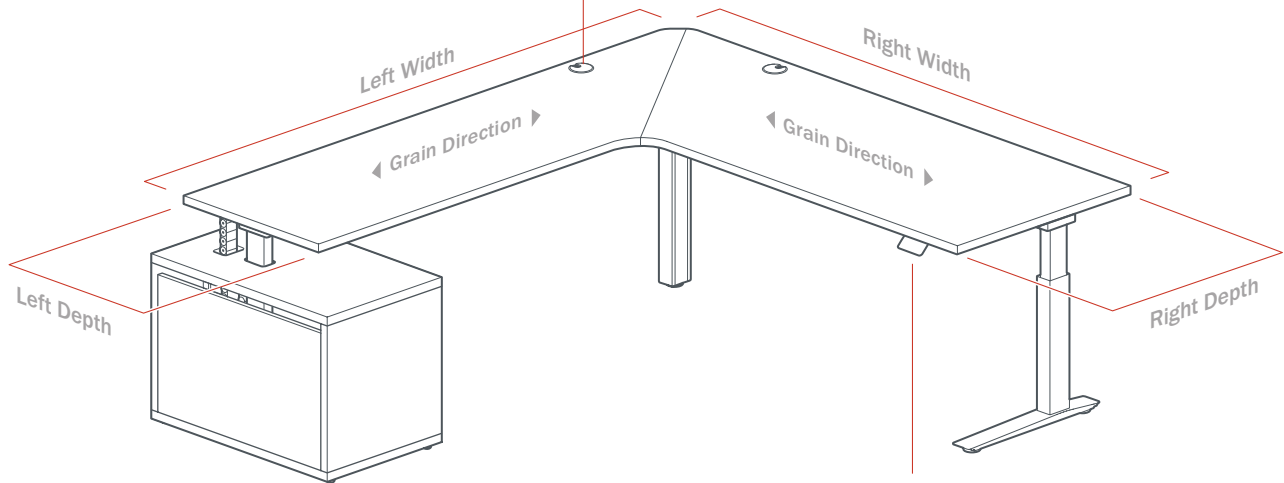

Zo Office Corner Run-Off Desk

Specify L/R to select the location of the integrated storage. (Left hand shown below).

Grain Direction runs the width of the surfaces.

Corner Run-off desks can be specified with one or two grommets; optioned Left (L), Right (R), or both (LR).

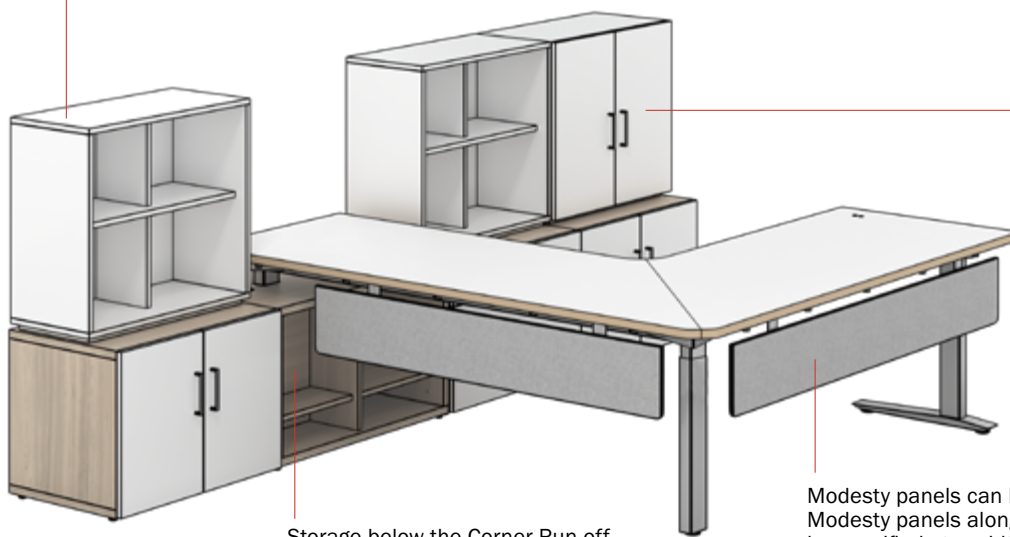

Grommets are 60mm in diameter and include a black plastic cover. Grommets are 2.75" on center from the back edge of the worksurface and 19" on center from the corner edge.

Multiple switch options are possible to control the worksurface height. See page 19 for more detail.

The standard switch location for corner run-off desks is on the end opposite the integrated storage.

Stak units provide additional storage and are secured to the denzas below.

Storage below the Corner Run-off desk can be specified as open or with a pair of doors.

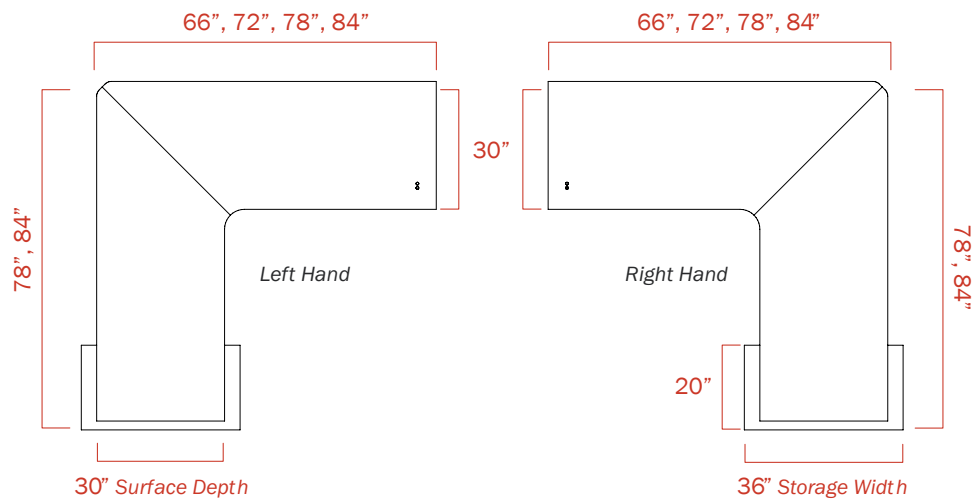

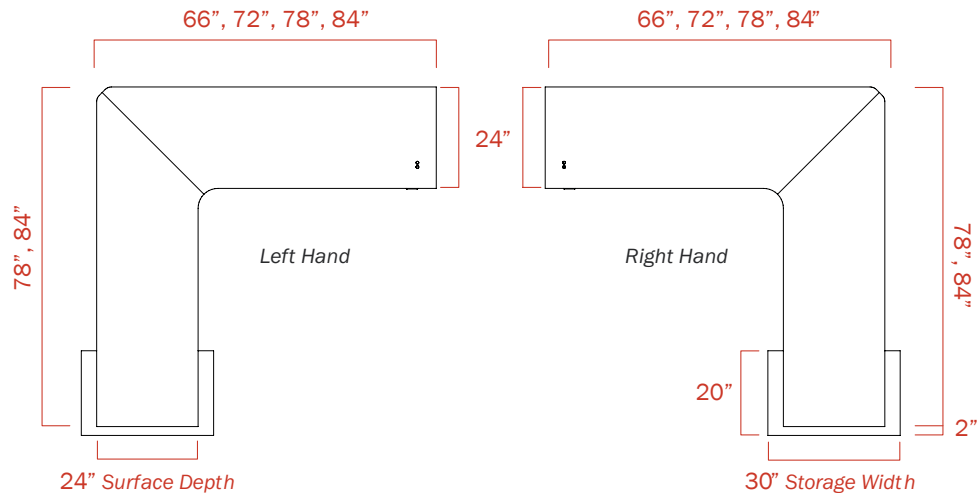

Leverage other Zo storage products to complete your space. Wardobes, Filing, and additional compatible storage types can be found in the Zo pricer.

Modesty panels can be optioned on both surfaces. Modesty panels along the integrated storage side should be specified at a width 27" less than the specified surface width. The modesty panel on the non-integrated side should be specified 12" less than the specified worksurface width.

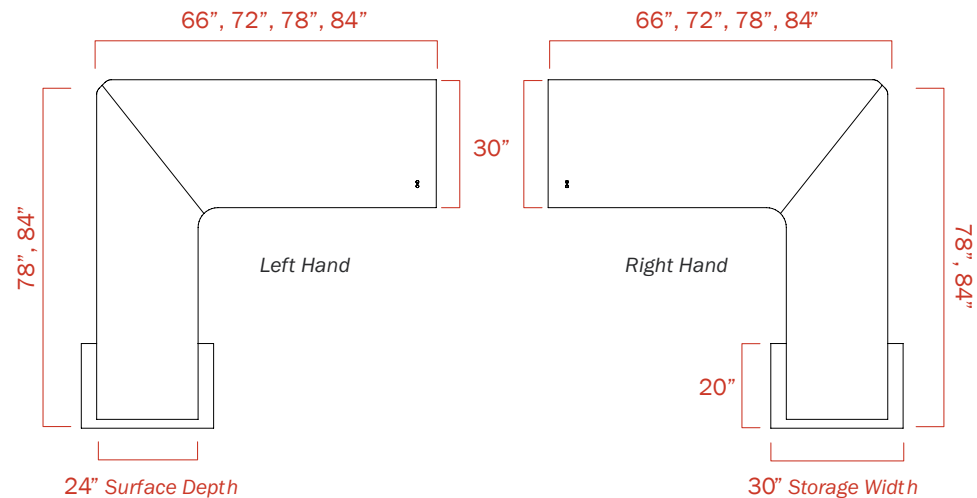

Corner Run-off Desk Surface Shapes & Sizes

Worksurfaces are net sized, actual dimensions are 1" less than the stated surface depth and width.
Handedness refers to the side of the desk where the integrated storage is located.
The worksurface that integrates into the storage is limited to widths of 78 or 84.

Equal Returns

Zo Office Single Inline

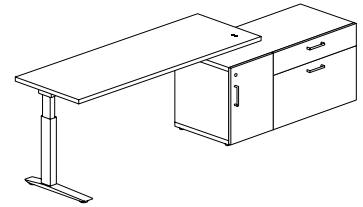

*Right hand shown

45"W Storage denza, Open

45"W Storage denza, Door Pair

45"W Storage denza, Box / Lateral File

Desk surfaces are 1-1/8" thick

Units are handed, noted as storage on left, storage on right

Inline desks can be optioned with a single grommet, specified as Inside or outside. If another location is desired, order DAGR 60mm grommets separately and install them in the field.

Tops are net sized. Actual dimensions are 1" less than the specified width and depth of the surface.

Single Inline Desk Sizes & Details

Rectangle, Super Ellipse

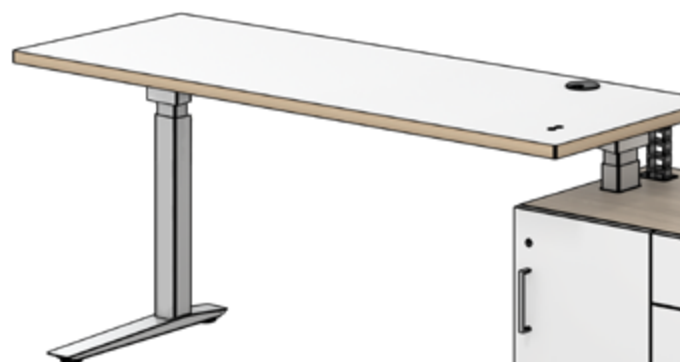

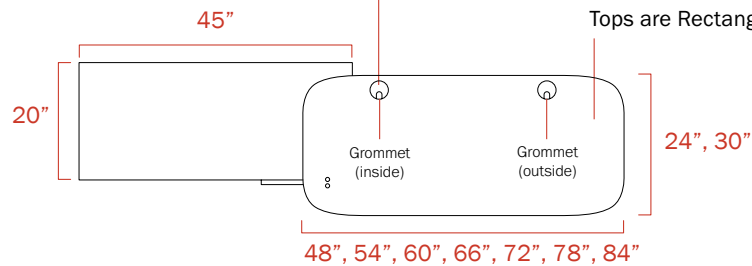

Worksurface D: 24, 30

Worksurface W: 48-84

Grommets are 2.5" on center from the back edge of the worksurface and 12.75" on center from the end.

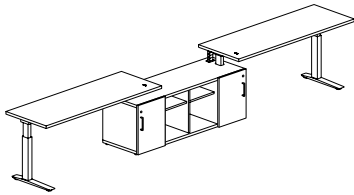

Tops are Rectangle or Super Ellipse

30"W Stak units align with drawer/door configurations in the denza and leave adequate space between stak and adjustable height worksurface

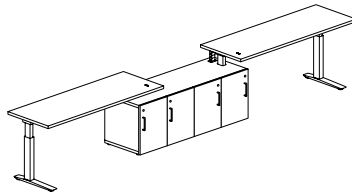

Portion of Denza that integrates with the desk always has a door.

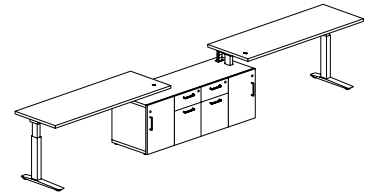

Zo Office Dual Inline Desk

60"W Storage denza, Open

60"W Storage denza, Door Pair

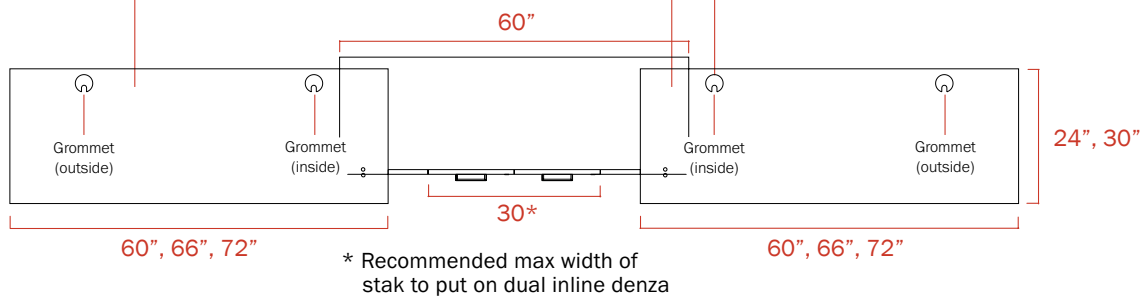

60"W Storage denza, Box / File

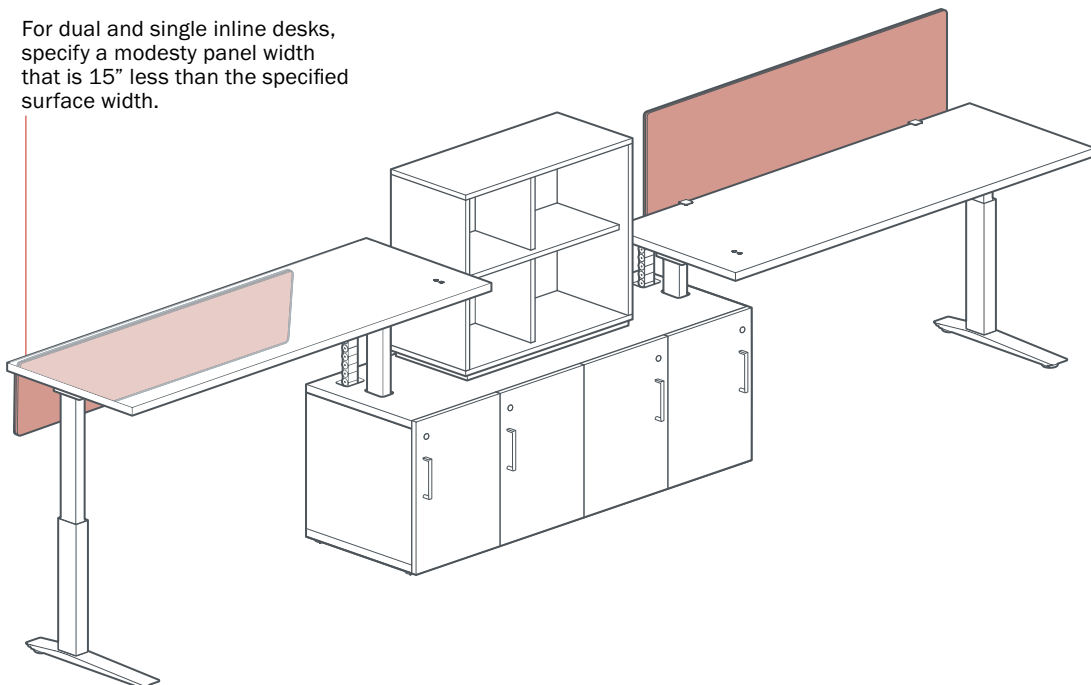

Specifications are mirrored between the worksurfaces on dual inline. Options and finishes must match.

Surface is offset from back edge of denza by 2" to provide adequate space for a surface mounted screen and to maintain clearance if placed up against a wall.

Inline desks can be optioned with a single grommet, specified as Inside or outside. Grommets are 2.5" on center from the back edge of the worksurface and 12.75" on center from the end.

For dual and single inline desks, specify a modesty panel width that is 15" less than the specified surface width.

Zo Office | Product Specification Details

Work Surface

The Zo Office Desk comes with a worksurface constructed from any of the following core materials (depending on selected options): 24mm European birch multi-ply plywood with a waterborne edge stain, 27mm double refined NAF MDF with a waterborne edge stain, or 1.125" M2 industrial NAF particle board with a 1.5mm polypropylene edge band. The desk comes in either a rectangle, super ellipse, or corner shaped top. All core materials are finished with either horizontal or post-form grade high pressure laminate or Forbo furniture linoleum on the top surface. The surface panel is balanced by an appropriate backer panel that varies depending on the top surface. These laminates are hot pressed using Wilsonart 3000 PVA ultra-low VOC adhesive. The support rails of the desk consist of a 12-gauge formed sheet metal channel and Linak lifting columns. There are 3 switch options to control the lifting columns: an embedded button, a Display Paddle switch with Bluetooth connectivity, or a standard Paddle switch with Bluetooth connectivity. The support rail is secured to brass inserts on the underside of the worksurface via screws from the underside of the channel. All metal components are powder coated. The desk also includes the Linak DS1 Anti-Collision system to prevent damage or injury while adjusting the desk.

General Construction (Credenza and Stak)

Zo Office Denzas are built from wood composite board that is 100% recycled industrial by-product from local milling operations located within our Pacific Northwest region. The wood board contains 90-95% recycled content that in turn may be recycled again. Boards are finished with GreenGuard™ certified laminates. Zo Office steel legs have recycled content of over 80%, and are 100% recyclable. To maximize the strength of the 1½ inch thick material construction, Zo Office Denzas units have 'Top Over' and 'Bottom Under' case construction.

For durability and improved aesthetics, storage side panels are banded all the way around. Side panels are set flush to the top and bottom of the case, and all fasteners are fully concealed.

Cases

Cable ready Zo Office Denza back panels have a 1" inch gap at the top, shelves inset 1½ inches from the back, and pass-through cutouts on all vertical dividers.

Depth variance for units with or without drawers or door faces is nominal, less than 1 inch for any Zo Office component. For example, Zo Office Denza units with drawer and door faces have a 20 inch depth. The actual depth of open units differs slightly. To obtain the actual measurement of an open unit subtract ⅞ of an inch (the depth of a drawer or door face) from the overall depth measurement of the case.

Drawers

Drawer bodies are constructed of 16-gauge cold rolled steel side walls, ½" thick wood composite board bottom and back for maximum load and rigidity. This construction requires no adhesive for 100% disassembly for end of life recycling. All drawers feature 100 lb ball bearing suspensions (BIFMA tested to 40,000 cycles).

Lateral drawers, ship with Lateral Rail Filing Kit to optimize full drawer volume with side-to-side filing.

A pencil tray is included with every credenza that has a 15 inch wide box drawer

Locks

Storage locks can be specified one of three ways, factory installed "L," non-locking "N," or field installed "U." "L" locks are keyed randomly and factory installed. The non-locking "N" option keeps drawer and door faces clear when locks are not required. Field installed "U" locks are keyed alike upon installation in the field.

Zo Office Stak

Stak units have 'Top Over' and 'Side Over' construction to enhance the core case strength and provide a clean visual appearance.

Desk-Mounted Screens

Constructed of NAF tackboard, while mounting brackets are constructed of welded 10 and 12 gauge cold rolled steel. Clamp to the undersurface via a threaded glide or wood screws depending on the edge type of the worksurface.

Desk Corner Screen

The main portion of the screen is constructed of two pieces of 12mm LDF wrapped in fabric using a rubber emulsion Simalfa glue with zero VOC's. The side of the screen is constructed of 12 gauge cold rolled steel offered in a slotted version available in Watson powder coated finishes or a white board coating with limited slots needed for mounting. The screen includes brackets that clamp to the rear of the desk surface and with wood screws on the sides. The screen is non handed and as such can be repositioned to work either in a left-handed, or right-handed orientation. The screen can also be specified as a full wrap screen which consists of two screens, one mounted in the right-handed and a second mounted in a left-handed orientation completing a full wrap around the back and two sides of the desk. All metal components are powder coated.

Zo Office | Product Specification Details

Desk Modesty Screen

Constructed of two pieces of ¼" MDF wrapped in fabric using a rubber emulsion Simalfa glue with 0 VOC's. The modesty panel mounts below the worksurface using 10-gauge cold rolled steel brackets that mount to the desk surface using wood screws. All metal components are powder coated.

E-Chain

Featuring an industry leading injection molded plastic E-chain to control the movement of the cables leaving the desks, the universal energy chain allows for connecting any of Watson's desks to each of Watson's power-voice-data channels. Each mounting bracket is constructed of 16-gauge powder coated cold rolled steel and mechanically attaches to the power-voice-data rails and the desks.

Pendent Storage

The pendent storage is designed to mount on the underside of any worksurface. Available in either 12" and 16" deep versions, the storage is intended to work on either 24" or 30" deep desks. The pendent storage is constructed of a custom aluminum extrusion creating the drawer face, integrated pull, and pencil tray, and is capped on the sides with 16-gauge cold rolled steel brackets. The interior of the drawer features an e-leather wrapped drawer bottom to create a soft landing point for phones or other items.

Zo Office Accessories

Personal Pendent Drawer

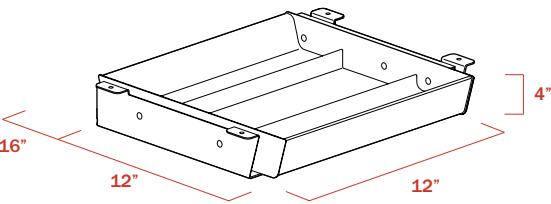

Pendent storage can only be specified on rectangular surfaces of 24 or 30 deep, OR corner run-off desk at 30 deep.

Extruded aluminum integrated pull on the underside of the drawer face

Available in either 12" or 16" depths, intended to work on either 24" or 30" deep surfaces

Non-locking design

Zo Office Desk Control Options

Embedded Two-Button Switch

- Low profile and simple design, allows you to control desk height right from the desk surface using + or - buttons
- Positioned on the right side of desk surface
- Embedded Two-Button Switch designed by Morten Nikolajsen, Mohoni Studio, Svendborg, Denmark
- The Zo bracket fits through a gap at the back of the Zo Denza and includes two holes to accommodate flush placement to the Zo Denza back.

Embedded Two-Button Switch

- Optional Bluetooth Adapter allows desk control wirelessly from the Desk Control App on your smartphone
- *Programmable Smartphone App* lets you adjust desk straight from the app, schedule standing working sessions with reminders to change positions, and view statistics of daily achievements (standing time and burned calories)
- App allows “Guest” or “Owner” use for permanent vs. hotel desking situations
- Adapter is not needed with Paddle Switch options below

Undersurface Paddle Switch

- Features two programmable positions, and an LED reminder to the user to change positions
- Integrated Bluetooth and *Programmable Smartphone App* lets you adjust desk straight from the app, schedule standing working sessions with reminders to change positions, and view statistics of daily achievements (standing time and burned calories)
- App allows “Guest” or “Owner” use for permanent vs. hoteling desk situations
- Adjust desk height manually by tilting the panel in the same direction you’d like the desk to move

Undersurface Paddle Switch with Display

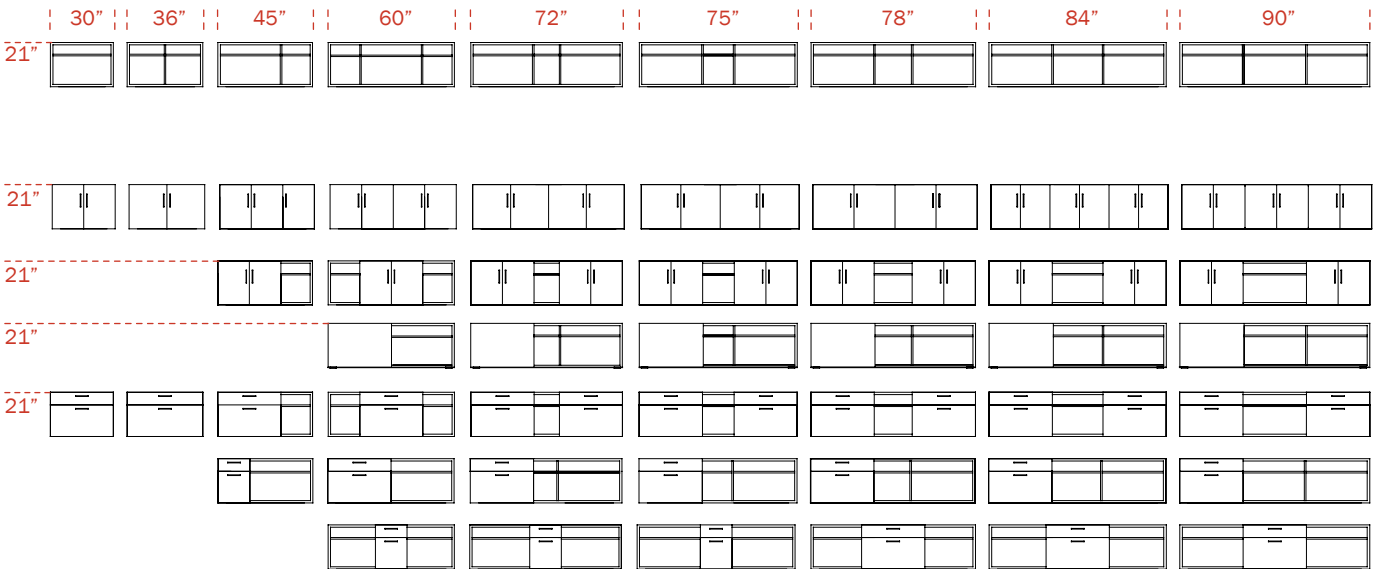

- The advanced paddle switch features a display to guide users, four programmable positions, and a light strip reminder to change positions
- Integrated Bluetooth and *Programmable Smartphone App* lets you adjust desk straight from the app, schedule standing working sessions with reminders to change positions, and view statistics of daily achievements (standing time and burned calories)
- App allows “Guest” or “Owner” use for permanent vs. hotel desk situations
- Adjust desk height manually by tilting the panel in the same direction you’d like the desk to move

Zo Office Denza

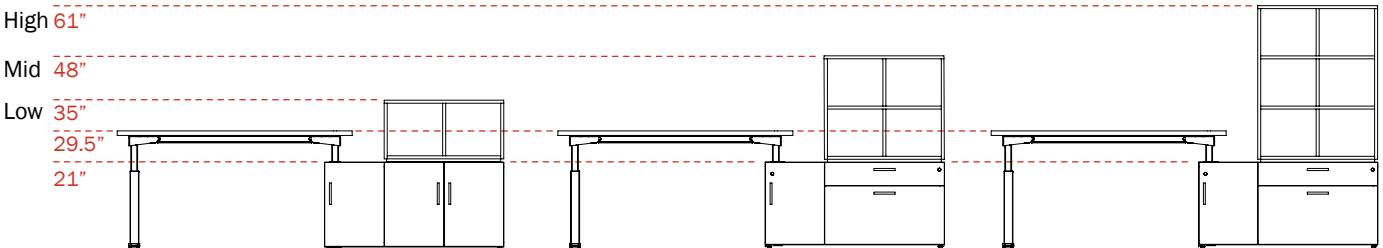

Denza Size Logic

Open

Denza + Stak Size Logic

Zo Denza Mid No Base w/ Zo Stak

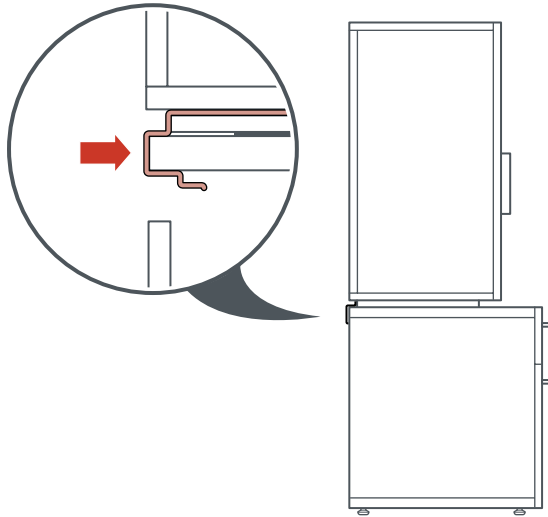

Zo Office Stak

The Zo bracket fits through a gap at the back of the Zo Denza and includes two holes to accommodate flush placement to the Zo Denza back.

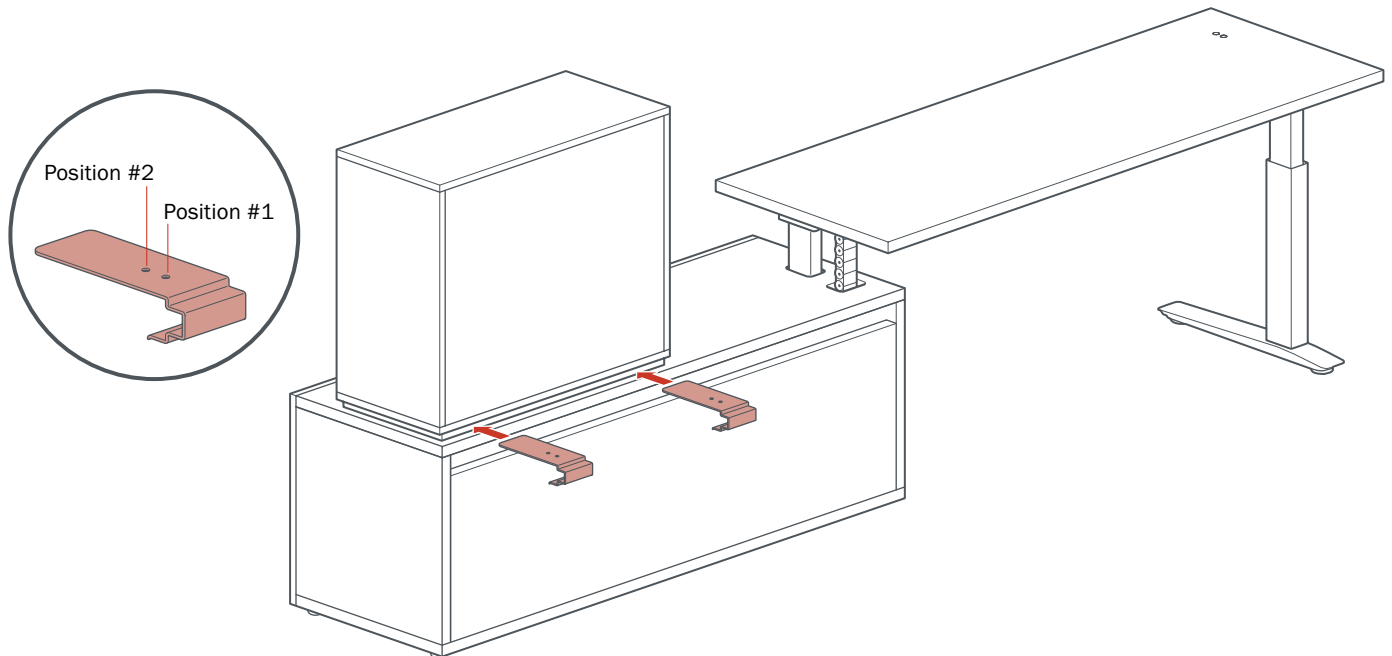

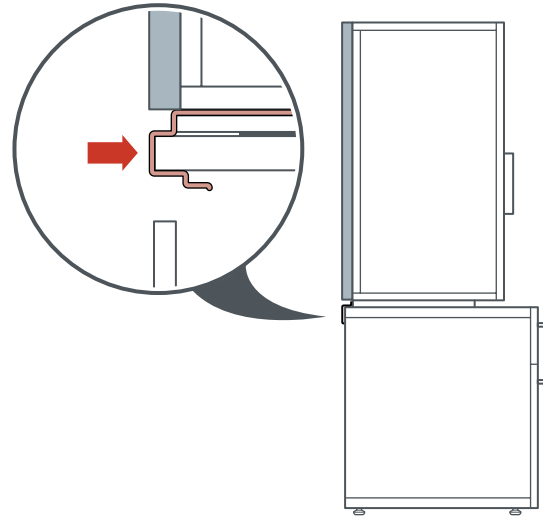

Standard Attachment

The back of the Zo Stak sits flush to the back of Zo Denza unit using bracket position #1.

Zo Stak w/Markerboard

The markerboard sits flush to the back of the Zo Denza unit using position #2.

Zo Office Denza + Stak | Product Specification Details

General Construction

Zo is built from wood composite board that is 100% recycled industrial by-product from local milling operations located within our Pacific Northwest region. The wood board contains 90-95% recycled content that in turn may be recycled again. Boards are finished with GreenGuard™ certified laminates. Laminates are fused to surfaces using water-based, non toxic and ultra-low VOC emitting adhesive. Zo's steel legs have recycled content of over 80%, and are 100% recyclable.

To maximize the strength of the 1½ inch thick material construction, Zo Denza and Zo Sto units have 'Top Over' and 'Bottom Under' case construction.

For durability and improved aesthetics, storage side panels are banded all the way around. Side panels are set flush to the top and bottom of the case, and all fasteners are fully concealed.

Cases

Cable Ready Zo Denza back panels have a 5/8 inch gap at the top, shelves inset 1½ inches from the back, and pass-through cut-outs on all vertical dividers.

All storage case depths and widths are true-size dimensions. Depth variance for units with or without drawers or door faces is nominal, less than 1 inch for any Zo component. For example, Zo Denza units with drawer and door faces have a 20 inch depth. The actual depth of open units differs slightly. To obtain the actual measurement of an open unit subtract 7/8 of an inch (the depth of a drawer or door face) from the overall depth measurement of the case.

Drawers

Drawer bodies are constructed of 16-gauge cold rolled steel side walls, ½" thick wood composite board bottom and back for maximum load and rigidity. This construction requires no adhesive for 100% disassembly for end of life recycling. All drawers feature 180 lb ball bearing suspensions (BIFMA tested to 40,000 cycles).

Lateral drawers, ship with Lateral Rail Filing Kit to optimize full drawer volume with side-to-side filing. Precise placement file bar retainers and ½ x 1" hardened aluminum rails.

A pencil tray is included with every case that has a 15 inch wide box drawer.

Locks

Storage locks can be specified one of three ways, factory installed "L," non-locking "N," or field installed "U." "L" locks are keyed randomly and factory installed. The non-locking "N" option keeps drawer and door faces clear when locks are not required. Field installed "U" locks are keyed alike upon installation in the field.

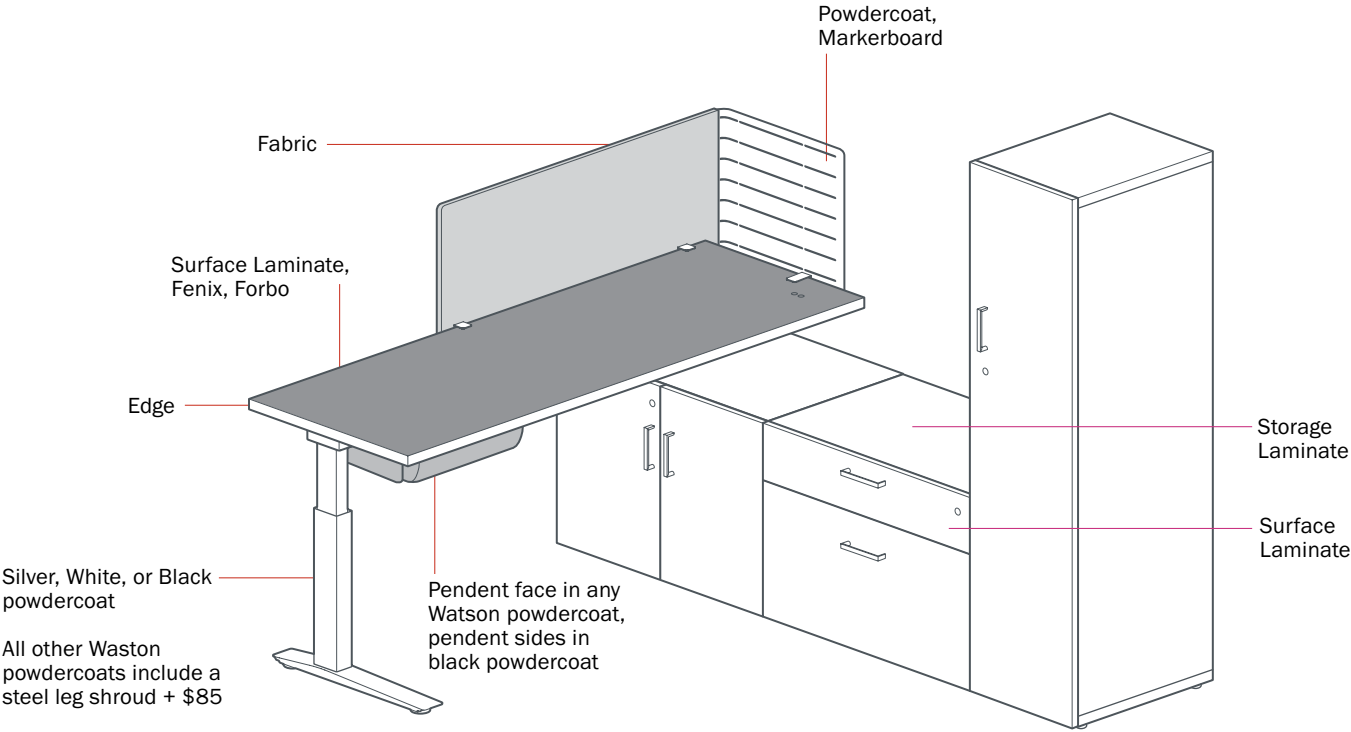

Zo Denza

Denza units are constructed using a 1½ inch outer case to allow longer widths and to support the weight of Zo Stak cases. Shelf dividers and rear panels are constructed with ¾ inch material for solid structural support and visual contrast to the outer case proportion.

Zo Stak

Stak units have 'Top Over' and 'Side Over' construction to enhance the core case strength and provide a clean visual appearance.

Zo Office Finish Guide

Contrasting Laminates Upcharges

When Zo is specified in all Storage Laminate (either with contrasting or non-contrasting case and face finishes) there is no upcharge. However, Zo can be specified with a Surface Laminate on the door or drawer face. Using a Surface Laminate on the door/drawer face incurs a \$140 upcharge.

Please note: The drawer/door face edge requires a Storage Laminate as the finish. If the door/drawer face is specified in Surface Laminate, the face edge will match the case. If the door/drawer face is specified in Storage Laminate, the face edge will match the door/drawer face.

Extended Powdercoat Program

Additional RAL colors are available as part of Watson's Extended Powdercoat Program. Please consult with your account manager to ensure your powder selection is available. Some pearls and metallics are not offered.

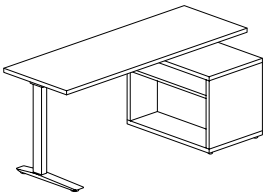

- **Upcharge: \$1760 list per order, per color**
- **Leadtime: No change to leadtime**

*Clearcoat Powdercoat (Raw Steel)

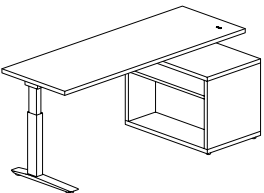

Preserves the look of exposed welds with visible heat bluing, grinding, natural blemishes and manufacturing tooling marks.
