Lock Placement

Storage locks can be specified one of three ways: non-locking, factory installed, or field installed.

A special order is required for lock cores numbered higher than 150. All locks are specified silver or black to match the pull color selected.

Zo Storage Support Riser

Any 26"H Zo storage unit, coupled with a storage support riser may be used to create a secure and level connection to the worksurface. The riser elevates the worksurface an additional two inches above the storage unit. The Zo Riser can only be paired with Zo storage, and when attached, creates a fixed position worksurface.

Zo Sidecar

The 15" Sidecar supports standard letter size hanging files in a front to back configuration, and has 20" of internal filing depth.

Zo Ped & Sidecar | Product Specification Details

General Construction

Zo is built from wood composite board that is 100% recycled industrial by-product from local milling operations located within our Pacific Northwest region. The wood board contains 90-95% recycled content that in turn may be recycled again. Boards are finished with GreenGuard™ certified laminates. Laminates are fused to surfaces using water-based, non toxic and ultra-low VOC emitting adhesive. Zo's steel legs have recycled content of over 80%, and are 100% recyclable.

For durability and improved aesthetics, storage side panels are banded all the way around. Side panels are set flush to the top and bottom of the case, and all fasteners are fully concealed.

Drawers

Drawer bodies are constructed of 16-gauge cold rolled steel side walls, ½" thick wood composite board bottom and back for maximum load and rigidity. This construction requires no adhesive for 100% dissemblance for end of life recycling. All drawers feature 180 lb ball bearing suspensions (BIFMA tested to 40,000 cycles).

Lateral drawers, ship with Lateral Rail Filing Kit to optimize full drawer volume with side-to-side filing. Precise placement file bar retainers and ⅝ x 1" hardened aluminum rails.

A pencil tray is included with every case that has a 15 inch wide box drawer.

Locks

Storage locks can be specified one of three ways, factory installed "L," non-locking "N," or field installed "U." "L" locks are keyed randomly and factory installed. The non-locking "N" option keeps drawer and door faces clear when locks are not required. Field installed "U" locks are keyed alike upon installation in the field.

Two heights available

Wardrobe offers a rod for hanging personal gear

Field reversible storage

Specify either a tackboard or whiteboard for the back of Zo Side open storage.

Zo Side

Zo Side Support

Zo Side Support is made possible with the use of a Zo Side Support Bracket. When attached, the worksurface height is fixed at 29½" high. A Zo Side bracket may be used opposite a Zo Ped riser, eliminating the need for legs on both sides of the worksurface.

Lock Placement

The markerboard sits flush to the back of the Zo Denza unit using position #2.

Zo Denza + Stak | Product Specification Details

General Construction

Zo is built from wood composite board that is 100% recycled industrial by-product from local milling operations located within our Pacific Northwest region. The wood board contains 90-95% recycled content that in turn may be recycled again. Boards are finished with GreenGuard™ certified laminates. Laminates are fused to surfaces using water-based, non toxic and ultra-low VOC emitting adhesive. Zo's steel legs have recycled content of over 80%, and are 100% recyclable.

To maximize the strength of the 1½ inch thick material construction, Zo Denza and Zo Sto units have 'Top Over' and 'Bottom Under' case construction.

For durability and improved aesthetics, storage side panels are banded all the way around. Side panels are set flush to the top and bottom of the case, and all fasteners are fully concealed.

Cases

Cable Ready Zo Denza back panels have a 5/8 inch gap at the top, shelves inset 1½ inches from the back, and pass-through cut-outs on all vertical dividers.

All storage case depths and widths are true-size dimensions. Depth variance for units with or without drawers or door faces is nominal, less than 1 inch for any Zo component. For example, Zo Denza units with drawer and door faces have a 20 inch depth. The actual depth of open units differs slightly. To obtain the actual measurement of an open unit subtract 7/8 of an inch (the depth of a drawer or door face) from the overall depth measurement of the case.

Drawers

Drawer bodies are constructed of 16-gauge cold rolled steel side walls, ½" thick wood composite board bottom and back for maximum load and rigidity. This construction requires no adhesive for 100% dissemblance for end of life recycling. All drawers feature 180 lb ball bearing suspensions (BIFMA tested to 40,000 cycles).

Lateral drawers, ship with Lateral Rail Filing Kit to optimize full drawer volume with side-to-side filing. Precise placement file bar retainers and ½ x 1" hardened aluminum rails.

A pencil tray is included with every case that has a 15 inch wide box drawer.

Storage locks can be specified one of three ways, factory installed "L," non-locking "N," or field installed "U." "L" locks are keyed randomly and factory installed. The non-locking "N" option keeps drawer and door faces clear when locks are not required. Field installed "U" locks are keyed alike upon installation in the field.

Zo Denza

Denza units are constructed using a 1½ inch outer case to allow longer widths and to support the weight of Zo Stak cases. Shelf dividers and rear panels are constructed with ¾ inch material for solid structural support and visual contrast to the outer case proportion.

Zo Stak

Stak units have 'Top Over' and 'Side Over' construction to enhance the core case strength and provide a clean visual appearance.

Contrasting Laminates Upcharges

When Zo is specified in all Storage Laminate (either with contrasting or non-contrasting case and face finishes) there is no upcharge. However, Zo can be specified with a Surface Laminate on the door or drawer face. Using a Surface Laminate on the door/drawer face incurs a \$140 upcharge.

Please note: The drawer/door face edge requires a Storage Laminate as the finish. If the door/drawer face is specified in Surface Laminate, the face edge will match the case. If the door/drawer face is specified in Storage Laminate, the face edge will match the door/drawer face.

*Clearcoat Powdercoat Option (Raw Steel)

Preserves the look of exposed welds with visible heat bluing, grinding, natural blemishes and manufacturing tooling marks. An additional upcharge of \$110 list is added to the base price of each component ordered. Items \$110 or less excluded from upcharge.

Extended Powdercoat Program

Additional RAL colors are available as part of Watson's Extended Powdercoat Program. Please consult with your account manager to ensure your powder selection is available. Some pearls and metallics are not offered.

- **Upcharge: \$1760 list per order, per color**
- **Leadtime: Contact the Factory for Lead Time**
